Part 4: Newspaper Club

At what schools (from what sources) might you see these student newspaper articles?

26. To paraphrase Alice Cooper, school's not just out for summer -- it's out forever, because the school's been blown to pieces. At this year's commencement, our Mayor, while celebrating the school's centennial, surprisingly turned into a giant snake and ate the principal, precipitating an epic battle that only ended with the entire school being dynamited. No word yet on when students will receive their diplomas.

Part 6: Last Week's Scores

At what schools (from what sources) might you see these sports (and other event) scores?

Scorpions quarterback senior Michael Sandero had off-season surgery to remove the second head he grew in the middle of last season's division title run. Michael's mother, Flora Sandero, said she had her son's original head removed instead, as she liked the new head much better.
36. Game Aborted: Utter Global Crisis precipitated by tennis ball attack by Iran-Libya-Syria against the former Soviet states' air marshall while her back was turned; central computer destroyed in ensuing free-for-all.
