

Hour 6: Guess.

Part I: ????

The Brat Pack Movies

1. Mark which movies each brat pack member appeared in each. Extra ½ points for naming the character (first name is good enough).

	Emilio Estavez	Anthony Michael Hall	Rob Lowe	Andrew McCarthy	Demi Moore	Judd Nelson	Molly Ringwald	Ally Sheedy
Sixteen Candles (1984)								
The Breakfast Club (1985)								
St. Elmo's Fire (1985)								
Pretty in Pink (1986)								

2. Ferris Bueller's Day Off and Weird Science are not normally considered Brat Pack but they're both directed by John Hughes. Which year did they come out in, respectively?

Mean Girls Quotes: Pair the quote with the character (not actor) that said it.

3. "That's why her hair is so big. It's full of secrets."
4. "It's like I have ESPN or something. My breasts can always tell when it's gonna rain."
5. "Raise your hand if you have ever been personally victimized by Regina George"
6. "Don't have sex, because you will get pregnant and die!"
7. "Four for you, Glenn Coco! You go, Glenn Coco!"
8. "The greatest people you will ever meet, and the worst. Beware the plastics."
9. "I'm sorry that people are so jealous of me... but I can't help it that I'm so popular."
10. "Is butter a carb?"
11. "Half the people in this room are mad at me, and the other half only like me because they think I pushed somebody in front of a bus, so that's not good."

Other Movies

12. What's Torrance's cheerleading squad in "Bring It On" called?
13. What magazine does adult Jenna work at in "13 Going On 30"
14. What's Mia's cat named in Princess Diaries?
15. What's Tibby's mockumentary in The Sisterhood of the Travelling Pants called?

16. Where is the Lizzie McGuire Movie set?

Part II: ????

17. This is the term for a mutation where a base pair is added or removed.
18. A mutation where the amino acid produced by that segment of the gene (codon) is not changed.
19. In this type of mutation, one base pair's identity is changed.
20. This theory suggests that most mutations have little effect.
21. The addition or subtraction of a number of base pairs that is not divisible by 3 results in what?
22. What does a nonsense mutation produce?
23. A mutation in this type of cell will not be passed on to offspring.
24. A 32 base pair deletion in the human gene CCR5, typically found in northern Europeans, confers resistance to what pathogen?
25. Reactive species of what airborne element are a common mutagen?
26. Forensic samples of Napoleon's hair have high concentrations of this mutagen.
27. This fictional mutagen features in the Metroid Prime trilogy.
28. Patrick Stewart plays the leader of this fictional group of mutants.
29. Mutagens are often used to treat what class of diseases?
30. In what TV show is the city of Old New York populated by mutants?
31. What's the name of Joss Whedon's production company?

Part III: ????

32. In recent years, who have become the internet's enemy of choice for ninjas?
33. Which SNL sketch has been cited as a possible inspiration for Chuck Norris facts?
