

## ***Hour 2: MASCOTS***

## **It's Game Day!**

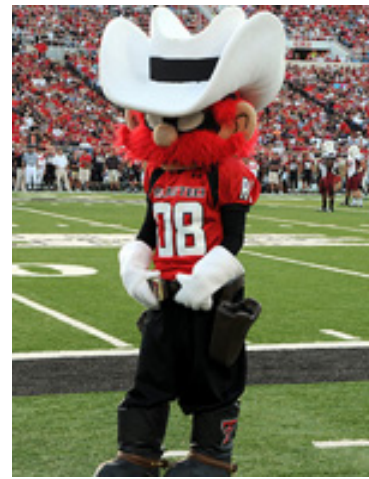

You know what that means - time to watch the people in silly outfits dance around a field for hours. But enough about football, it's the mascots we care about: the representation of our team, of who we are, the image that immediately conjures thoughts of our school pride and strikes terror into the hearts of our enemies (or in some cases alums).

**Given an image of a college mascot, name the college or university.**

# Corporate Brainwashing

Maybe sports isn't your thing. Maybe you're more into movies or cereal. Not to fear, there are mascots for you too! They will always be here to comfort you and sweetly pressure you into purchasing their product. So show some love to the giants of industry, without whom the world wouldn't turn - corporate mascots!

**Given an image of a company mascot, name both the mascot and the product it represents. Note that in some cases a mascot may have a colloquial name, but we want the official one!**
