

Every member of your lab group must sign this form, and it should be included as a cover sheet for your submitted write-up. Groups may have no more than three members, but one-member groups are allowed for students who wish to do their own work and submit their own write-ups without the help of others.

Please ask Professor Sanders for guidance before engaging in any activity that you think might be perceived as violating the Honor Code. Violations of the Honor Code will not be tolerated at all and will be reported and pursued fully according to College policy, so please take appropriate precautions.

We, the undersigned, affirm that for Lab #____ we worked together as a group, following the guidelines set forth for this course and in the Williams College Honor Code. Specifically, the individual members of this group contributed roughly equally to the overall work for this lab assignment and to the final submitted write-up. We further affirm that any collaboration with people not in this group was limited to ideas and concepts only, so that the work demonstrated and implied by this write-up was in fact physically performed only by members of this group, unless explicitly noted otherwise.
