

Your Next Vacation

(45 points)

Think of this Hour Bonus as a reminder to get up, get out, and explore the hidden wonders of the United States. That's right, this bonus is all about our national parks and monuments, but not the famous ones you've heard of. In part 1, you will be given **twenty pictures** of landscapes or memorials that reside in some of the US's less well-known preserved lands and locales. Your job is simply to Identify the park's name. If you can't manage that, give us the name of the State in which you think the park resides for a half point.

If your team gets a perfect score, there is an all expenses paid, all inclusive, even all you can eat, vacation to a national park of your choosing waiting for you to claim! I know it's late, people, but this is something to get excited about! For more information, please contact the [Williams College Department of Prizes and Giveaways](#) and ask to speak to Doug.

Good Luck!
