3B: For this group, name the fictional species of bug
 (For half points, name the franchise/media it is from)

43	
----	--

44	 A green, horned alien creature with a large green eye-like device on its chest. The creature has a textured, scaly skin and two long, curved horns. It is holding a large, cylindrical object with a green lens or opening.
45	 A purple, blocky, geometric object with a red rectangular feature. The object is composed of several interconnected rectangular blocks, creating a complex, stepped structure. One of the blocks has a small red rectangular area on its side.
46	 A large, green, spiky, and circular object with multiple blue circular openings. The object has a textured, scaly surface and several sharp, pointed protrusions. It features several large, circular openings with a blue, glowing interior. The background is a light blue sky with clouds.

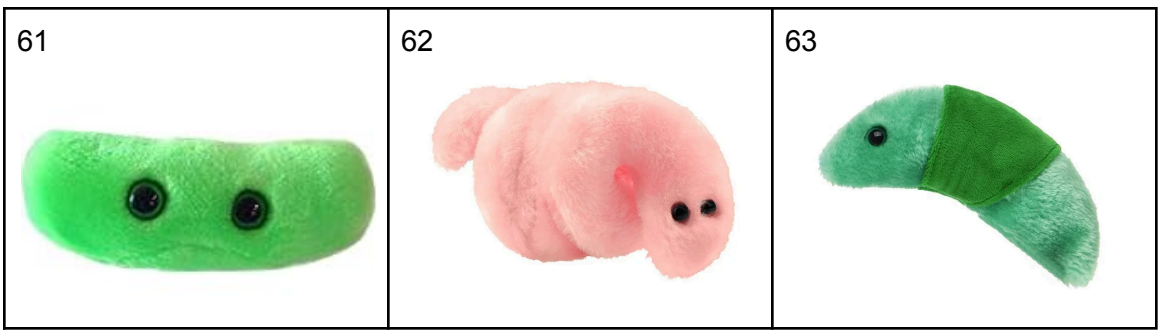

47
