

Roguelike-like

Roguelike is a subgenre of role-playing video games characterized by procedurally generated levels, turn-based gameplay, grid-based movement, and permanent death of the player character. The genre's namesake comes from a series of video games inspired by the 1980 game *Rogue* (hence *Rogue-like*). These questions are inspired by the roguelike genre (hence Roguelike-like).

Part 1: Like *Rogue*

Name these video games that have at least one, but not all, of these gameplay systems: **procedural generation**, **turn-based gameplay**, **grid-based movement**, and **permadeath**. 1 point for the name of the game, 1 point for each system the game has.
