

For this bonus, you will be playing GeoGuessr - the game of Google Maps meets Where in the World is Carmen Sandiego. You will be placed into Google Maps StreetView Mode and need to determine where in the world you are.

How to play

- Move around using the arrow keys, clicking on where you want to move to, or clicking visible arrows at the bottom of the screen.
- You can rotate your view by clicking and dragging the screen around.
- Zoom in or out by rotating the mouse wheel or using the plus/minus buttons on the left side of the screen.
- Use the compass on the left of the screen as a navigational aid.
- Click the flag on the left to go back to where you started.
- To make a guess, zoom in to your location on the map on the right and click on the location you want to guess. Hit "Make Guess" to finalize your guess.
- Each location has a 4 minute timer. You can submit your guess before time runs out, but if the timer runs out, wherever you have clicked on the map will be recorded as your guess. If you didn't click on the map, you will receive 0 points.
- Feel free to have different player on your team take on different map packs at the same time.
- Each pack has a theme and 5 locations - budget your time accordingly!

Receiving your score

- You will be prompted to give an email address or log in with facebook/gmail. Once you give one of these, you don't need to set up an account, wait for a confirmation email or anything, just record on the answer sheet what email address/name is associated with your team.
- After each guess, you will see a score out of 5000 points assessed using GeoGuessr's algorithm that weights distance, country, city, and continent match. For the purpose of Williams Trivia, you don't need to worry about your score on a given location.
- After you play the five locations of a map pack, you will be shown your cumulative score for that map pack. Please record this score on your answer sheet. We will verify what you wrote using the email/name you provide. If you don't provide the name/email you used for a map pack, you will receive a 0 for that pack. If you miss your cumulative score, but give us an ID, you will still receive your score.
- After you play all three map packs and have recorded your ID and score for each, submit your answer sheet.
