Without additional light, the room is well lit: Yes

Additional Comments:

Temperature

Room Temperature: Cold

heater didn't work particularly well (very old and noisy)

Ability to adjust heat: Yes, there is a thermostat
not particularly effective

Unique Quirks

The ceiling leaked sometimes near where the water pipe came in from upstairs, and I had a few posters ruined by excess condensation on the walls.

Bathroom

People who share the bathroom: 4 to 5

Sinks: 1

Toilets: 1

Bathtubs: Bathtub with showerhead

Windows: No windows

Other comments: not amazing, but no complaints

even with heat at max, it's still a little cold during the winter

Ability to adjust heat: Yes, there is a thermostat
the heater can be adjusted

Unique Quirks

cupboards

Bathroom

People who share the bathroom: 4 to 5

Sinks: 1

Toilets: 1

Bathtubs: Bathtub with showerhead

Windows: No windows

Other comments: My bathroom is FREEZING even with the heater on the highest setting. there's a large gap between the bottom of the door and the floor, so a lot of cold air comes in

Sewall

95 (Double)

Basic Facts

Floor: Exposed (hardwood or tile)

Furniture included:

- Bed
- Desk
- Dresser (Drawers only)
- Chair
- Bookcase
- rocking chair

Adjustable Bed Height: No

Closet: Yes

much smaller than my roommate's! a bit cramped, esp. because the dresser pretty much had to go in there. decent sized shelf at the top, one hook on the wall--I just hung another hook off of the bar and it works nicely.

White Board on door: Yes

Slanted Ceilings: No

Light

Number of Windows: 4

Plenty of natural light: Yes

I leave the blinds up all the time, so it's usually very light in the room.

Time of day with most light: Don't notice

Without additional light, the room is well lit: Yes

Additional Comments:

Temperature

Room Temperature: Normal

I sleep next to a window which can get cold, but the radiator counteracts that nicely.

Ability to adjust heat: Yes, there is a thermostat

Two radiators, both with an ability to adjust by hand.

Unique Quirks

The back door is awesome, but you can't get in that way unless someone lets you in, so don't lock yourself out!

The room is big enough that it's essentially two rooms, which is very nice.

Bathroom

People who share the bathroom: 2 to 3

Sinks: 1

Toilets: 1

Bathtubs: Bathtub with showerhead

Windows: No windows

Other comments: usually not a problem to share, even with 3 other people. I generally don't leave my stuff in the bathroom, though.

Sewall

101 (Double)

Basic Facts

Floor: Exposed (hardwood or tile)

Furniture included:

- Bed
- Desk
- Dresser (Drawers only)
- Chair
- Bookcase
- Mirror

Adjustable Bed Height: No

Closet: Yes

I think the closets in this room are awesome and are the best part of the room. There are two closets which are quite different though both are large enough to walk into. Mine has a bar to hang things on as well as a large shelf on one side and three small shelves on the other.

White Board on door:

Slanted Ceilings: No

Light

Number of Windows: 3

Plenty of natural light: Y

There are 2 windows on one wall and one window on the adjoining wall. They are more like the windows you would traditionally see in a house.

Time of day with most light: Morning

Without additional light, the room is well lit: No

Additional Comments: The only light we have is the typical wall night seen in rooms at Williams, and at night, it would not provide sufficient lighting for work.

Temperature

Room Temperature: Normal

Ability to adjust heat: Yes, there is a thermostat

It is a heating vent with a dial on the side. It cannot be adjusted by actual temperatures, but only by a number scale. It has some effect, but is not as good as some thermostats (like those in Mission).

Unique Quirks

We have 3 windows, so that is really nice. The furniture is random and eclectic; my roommate and I have different beds, dressers, desks and closets. It is small but well-designed. One dresser has a stand up mirror attached and the bookshelf is on wheels so you can move it around easily.. The floor is drafty and slanted.

Furniture included:

- Bed
- Desk
- Dresser (Drawers only)
- Bureau (Drawers and Hanging Space)
- Chair
- Bookcase
- Mirror

Adjustable Bed Height: Yes

Closet: Yes

Large walk-in closet.

White Board on door: Yes

Slanted Ceilings: Yes

They don't interfere at all.

Light

Number of Windows: 2

Plenty of natural light: Yes

Time of day with most light: Morning

Without additional light, the room is well lit: No

Additional Comments: The main light isn't very strong.

Temperature

Room Temperature: Normal

Ability to adjust heat: Yes, there is a thermostat

Unique Quirks

No bathroom connected to the room.

Basic Facts

Floor: Exposed (hardwood or tile)

Furniture included:

- Bed
- Nightstand
- Desk
- Dresser (Drawers only)
- Chair
- Bookcase

Adjustable Bed Height: Yes

Closet: Yes

It's not the biggest closet in the world; probably about four feet wide.

White Board on door: Yes

Slanted Ceilings: No

Light

Number of Windows: 2

Plenty of natural light: Yes

Very well lit room with a nice view of Dodd and then another view of the church and the parking lot. The windows are some of the best things about the room.

Time of day with most light: Don't notice

Without additional light, the room is well lit: Yes

Additional Comments:

Temperature

Room Temperature: Normal

Ability to adjust heat: Yes, there is a thermostat

The thermostat is adequate, so the room can be as hot or cold (within reason) as you'd like.

Unique Quirks

The furniture is pretty old school - it's probably been here since Mark Hopkins time. I like the antique feel, but there's not a whole lot of extra room. I don't have too many clothes but I still bought an extra bin to keep some clothes.

Bathroom

People who share the bathroom: 1

Sinks: 1

Toilets: 1

Bathtubs: Shower

Windows: No windows

Other comments: Small, but for only two people it does the trick.
